

# Sound and Silence

## An Interstellar Musical

Callan Milani

**Meet Silence.**

**This quiet bubble child lives on the planet Honua.**

**Silence is the caretaker of the planet's bubbles.**

**Silence harvests these silent bubbles to keep its home in tune with the sky.**

**Even though quiet was everything and everywhere, Silence wished for music.**

**Today's sky stopped  
being quiet.**

**Silence listened.**

My name is

**Sound!**

I saw you listening to

**MY MUSIC!**

You ready for more?

**Silence's wish came true.**

**Music is Pitch!**

**Pitch is HIGH!**

**Pitch is LOW!**

**Music is Intervals!**

**Intervals are STEPS!**

**Intervals are SKIPS!**

# Music is Tempo!

Tempo is SLOW!

Tempo is FAST!

# Music is Meter!

Meter has  
**TWO BEATS!**

Meter has  
**THREE BEATS!**

# Music is Dynamics!

Dynamics are **soft.**

Dynamics are **LOUD!**

# Music is Articulation!

Articulations are

**SHORT,** **LONG,**

**SLURRED,** **AND** **ACCENTED!**

That's what I call  
**MUSIC!**

Silence never imagined  
music would be this chaotic!

Where did my  
new friend go?  
It was just  
getting good.

# Where did Silence go?

## To be continued!

**Music is  
Sound and Silence.**
